

## Are there any limits to the USB disk

Yes, there are following limits for the moment.

1. Only FAT16 and FAT32 [file systems](#) are supported. We recommend you to use FAT32.
2. Only one partition is supported. The [partition size](#) can be up to 500GB.
3. [Single file](#) size can be up to 4GB, which is the limitation of FAT32 format.
